Day 3 · AI agent call. If no answer: Slybroadcast VM with different angle, mentions a recent sale or listing in their area.

“Hey, it's Graeham again. A place just sold right near you that's kind of interesting, and I thought you'd want to know. Give me a call when you get a chance and I'll tell you about it.”

Day 7 · Second AI call + Slybroadcast VM. Different message — timely market stat or new listing in their target area.

“Hey, it's Graeham. The market by you has done something this week I think you'd want to hear about, and a new listing just came up too. Call me back and I'll fill you in.”
