

New Leads Pipeline

6 stages · entry funnel · 12-day sprint

New Lead — Uncontacted · 14 items

Every new lead enters here regardless of source. 12-day sprint to qualify and route. Fully automated except Day 1 live call and Day 12 review task.

Day 0 [ManyChat] auto

Meta leads only. Instant Messenger fires on form submit with GIF intro + "Are you looking to buy or sell?"
Qualifying flow captures phone → N8N → GHL → Adrian notified. All other sources skip to Day 1.

Day 1 · 5min [Live Call] manual

Adrian calls immediately. Use Buyer or Seller script depending on form type. Goal: qualify timeline, understand intent, book appointment.

Day 1 · No ans [VM / Lipdub] auto

Slybroadcast VM fires via N8N + simultaneous Lipdub GIF: "Hi [Name], it's Graeham, I just tried you. Shoot me a text when you get a sec and I'll help however I can." + calendar link. Slybroadcast script: "Hey, it's Graeham, sorry I just missed you. I'd be glad to help with your home search, so whenever you get a minute, text me or give me a call. Thanks."

Day 1 · +1hr [Email] auto

Same Lipdub video embedded as GIF + intro to Graeham + graehamwatts.com + calendar link. Subject: "I just tried to reach you — quick video inside."

Day 2 [AI Text] auto

"Hey [Name], did you get a chance to watch that video? Reply with any questions or grab a time, whatever's easier." + calendar link.

Day 3 [AI Call / VM] auto

AI agent call. If no answer: Slybroadcast VM with different angle, mentions a recent sale or listing in their area. Slybroadcast script: "Hey, it's Graeham again. A place just sold right near you that's kind of interesting, and I thought you'd want to know. Give me a call when you get a chance and I'll tell you about it."

Day 4 [Static GIF] auto

"Hey, wanted to share a quick video about how we work with [buyers/sellers] in EPA." Jason library asset — no name needed. + calendar link.

Day 5 [HeyGen] auto

HeyGen market update for their target area embedded as GIF. Subject: "What the EPA market looks like right now." Educational, no pitch.

Day 7 [AI Call / VM] auto

Second AI call + Slybroadcast VM. Different message — timely market stat or new listing in their target area. Slybroadcast script: "Hey, it's Graeham. The market by you has done something this week I think you'd want to hear about, and a new listing just came up too. Call me back and I'll fill you in."

Day 8 [Email] auto

Testimonial video matching their type. YouTube GIF thumbnail. Subject: "How we helped a family just like yours."

Day 9 [AI Text] auto

GIF text — casual. "Still thinking about [buying/selling]? No rush — here's my calendar if you ever want to chat."

Day 10 [Live Call] manual

Adrian second personal call. Different time of day from Day 1. Use buyer or seller script — note any responses received.

Day 11 [Static GIF] auto

"Here's how we've helped families in the area find success." YouTube video as GIF + calendar link.

Day 12 [AI Text] auto

"I'll stop bugging you for now. If your plans change I'm here. Want me to keep you posted on the market? Reply Yes or No."

Day 12 · EOD [Task] manual

ADRIAN: Review all data. Route to correct pipeline. Active/Within 3mo/Under 9mo/Over 9mo Buyer or Seller. Cold if no engagement. Unqualified if spam/wrong number. Nobody stays in New Leads after Day 12.

Contacted — No Response · continues sprint

Adrian reached the contact but they didn't engage meaningfully. Continues the 12-day sprint cadence with adjusted messaging.

Cadence: Continues Days 2–12 of the New — Uncontacted sequence. Adjustment: Adrian's Day 10 call references the prior contact attempt explicitly ("we connected briefly on [date], wanted to follow up").

Contacted — Responded · 5 items · highest priority

Lead replied with intent. Highest-priority stage. Adrian's goal: book consultation in next 48 hours and route to correct active pipeline.

+15 min [Live Call] manual

Adrian calls back immediately. Discovery: timeline, criteria, motivation. Push for consultation booking.

+1 hr [AI Text] auto

If no live answer: "Hey [Name], thanks for the reply — Adrian here. Grabbed a few options for you. When works for a quick 15-min call?" + calendar link.

Day 1 [Lipdub] auto

Personalized Lipdub from Graeham. "Hi [Name], glad you reached out. Here's how I work with [buyers/sellers] in EPA." + calendar link.

Day 2 [Live Call] manual

Adrian second attempt if no booking yet.

Day 3 [Task] manual

ADRIAN: Booked → Appointment Scheduled. Qualified but not yet booked → route to active pipeline by timeline. Unresponsive → back to Contacted - No Response.

Email/Text Only · drip — no calls

Lead engages via email or text but refuses calls. Long-cadence drip — pure value, no calls.

Cadence: AI Text every 5 days, HeyGen Email every 10 days, Static GIF MMS every 14 days. No live calls. If they break silence, Adrian responds within 15 minutes. Day 14 task: Adrian re-evaluates, routes if engaged.

Cold · quarterly nurture

Sprint completed with zero meaningful engagement. Quarterly low-touch nurture.

Cadence: 1 touch every 90 days — alternating HeyGen market video and Static GIF MMS. After 365 days zero engagement → Unqualified.

Unqualified · archive

Spam, wrong number, bad email, or explicitly not interested. No further automated touches. DND tag applied where applicable.

No cadence. Holding stage — no further outbound.
