EXPECTED SALES PRICE

\$970,750

REDFIN ESTIMATE, WHICH COUNTS ONLY THE COUNTY'S 810 SQ FT

|                  |                                                                                                                                                                                  |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ADDRESS / APN    | 215 Newbridge Street, Menlo Park, CA 94025. APN 055-363-200. Belle Haven, inside the City of Menlo Park (MLS Area 310, Menlo Park east of US-101)                                |
| CONFIGURATION    | Marketed as 3 bedrooms, 2 baths, about 1,040 sq ft. County records: 2 bedrooms, 1 bath, 810 sq ft, single story, built 1949                                                      |
| CONVERTED GARAGE | About 230 sq ft by your measurements (10'5" by 22'): a room of about 10'5" by 17'9" plus its own toilet and shower. Converted decades ago and never permitted; disclosed as such |
| CONDITION        | Great condition with good-quality finishes throughout. Charming rather than high-end                                                                                             |
| ROOF             | Replaced in 2024, shake to composition shingle. City permit RER2024-00655, finaled                                                                                               |
| LOT AND YARD     | About 5,130 sq ft (county). Large, well-designed front yard; small backyard                                                                                                      |
| SCHOOLS          | Belle Haven Elementary (Ravenswood City School District). Menlo-Atherton High (Sequoia Union)                                                                                    |
| FLOOD ZONE       | FEMA Zone X (unshaded). No flood insurance requirement                                                                                                                           |
| SALE HISTORY     | \$232,450 on 5/28/2010. Earlier: \$630,000 on 7/31/2006; \$375,000 on 12/31/2002; \$182,500 on 7/31/1998                                                                         |

**Where this home sits.** Condition sets price in Belle Haven more than anything else, and yours is in great condition. Marketed as a 3 bed, 2 bath of about 1,040 square feet, it goes up against the most common house here: 15 of the 23 Belle Haven sales in the last twelve months were three-bedrooms, and 8 of those were 910 to 1,140 square feet. The difference is the permit. Your third bedroom and second bath are in a garage conversion the city never permitted, so an appraiser will likely count only the county's 810 square feet, and some buyers will discount the room. The pricing below allows for both.

## THE MARKET STORY

Belle Haven has almost nothing for sale. As of September 29 there are 4 single-family homes on the market in the whole neighborhood, and 3 of them are already in contract. Over the last twelve months, 23 Belle Haven homes sold on the MLS at a median of \$1,262,000. The median home sold in 10 days, for 107.4% of its original asking price.

The two updated sales closest to you had a bigger lot and a bigger house. **1140 Almanor Avenue**, a block away, is a remodel of 970 square feet on a 6,874 square foot lot. It sold for **\$1,340,000** in August (\$1,381 a square foot) after 94 days and a price cut. **1140 Berkeley Avenue**, around the corner at 1,350 square feet, closed last week at **\$1,535,625**. Most of the sales above \$1.4 million nearby are remodels, flips or newer two-story homes of 1,200 to 1,800 square feet. The one smaller exception, 1125 Carlton Avenue, is a remodeled two-bedroom of 1,080 square feet with a designed Japanese garden, and it sold for \$1,475,000 in June.

The houses that match yours most closely are the three-bedrooms of about the same size. The five updated ones sold for **\$1,190,000 to \$1,262,000**. **1117 Madera Avenue**, exactly 1,040 square feet with a quartz kitchen, got **\$1,230,000** in 7 days. The two dated ones, with original or lightly refreshed kitchens and baths, sold for \$1,130,000 and \$1,150,000. Every one of them had a single bathroom.

Two nearby sales show how differently extra space can go. **1312 Carlton Avenue**, an updated two-bedroom whose garage was also converted to a room with its own bath, listed at \$1,185,000 as a two-bedroom with a bonus room and sold for **\$1,100,000** after 26 days. **1120 Henderson Avenue** went the other way: county records show a two-bedroom of 1,070 square feet, it was marketed as a three-bedroom of 1,280, and it sold for **\$1,400,000** in 6 days.

The city line is worth real money. Across Willow Road in East Palo Alto, updated three-bedroom, two-bath homes of 1,110 and 1,150 square feet sold for \$990,000 and \$1,065,000 this year, and 1030 Bradley Way, a two-bedroom of the same 810 square feet as your county record, is still for sale after 81 days at \$924,000. At the midpoint of the range below, your Menlo Park address is worth about \$155,000 more than those East Palo Alto three-bedrooms.

How homes were priced mattered as much as what they were. Of the 15 updated and remodeled Belle Haven sales, the 10 that sold over their original list did it in a median of 10 days. The 4 that listed above their comps, 551 Newbridge, 1140 Almanor, 1127 Madera and 1312 Carlton, sat 26 to 94 days and sold under their original price. Two of those four had converted or in-law space, and buyers did not pay the asking premium for it.

Rates are the headwind. The 30-year fixed was 7.50% on September 28, up from 6.38% a year ago. On a \$1,182,500 purchase with 20% down, that is about \$710 a month more for the same house. Most of the sales in this report went into contract at lower rates. That is one reason the range below tops out at the middle of the updated three-bedrooms, not at their high.

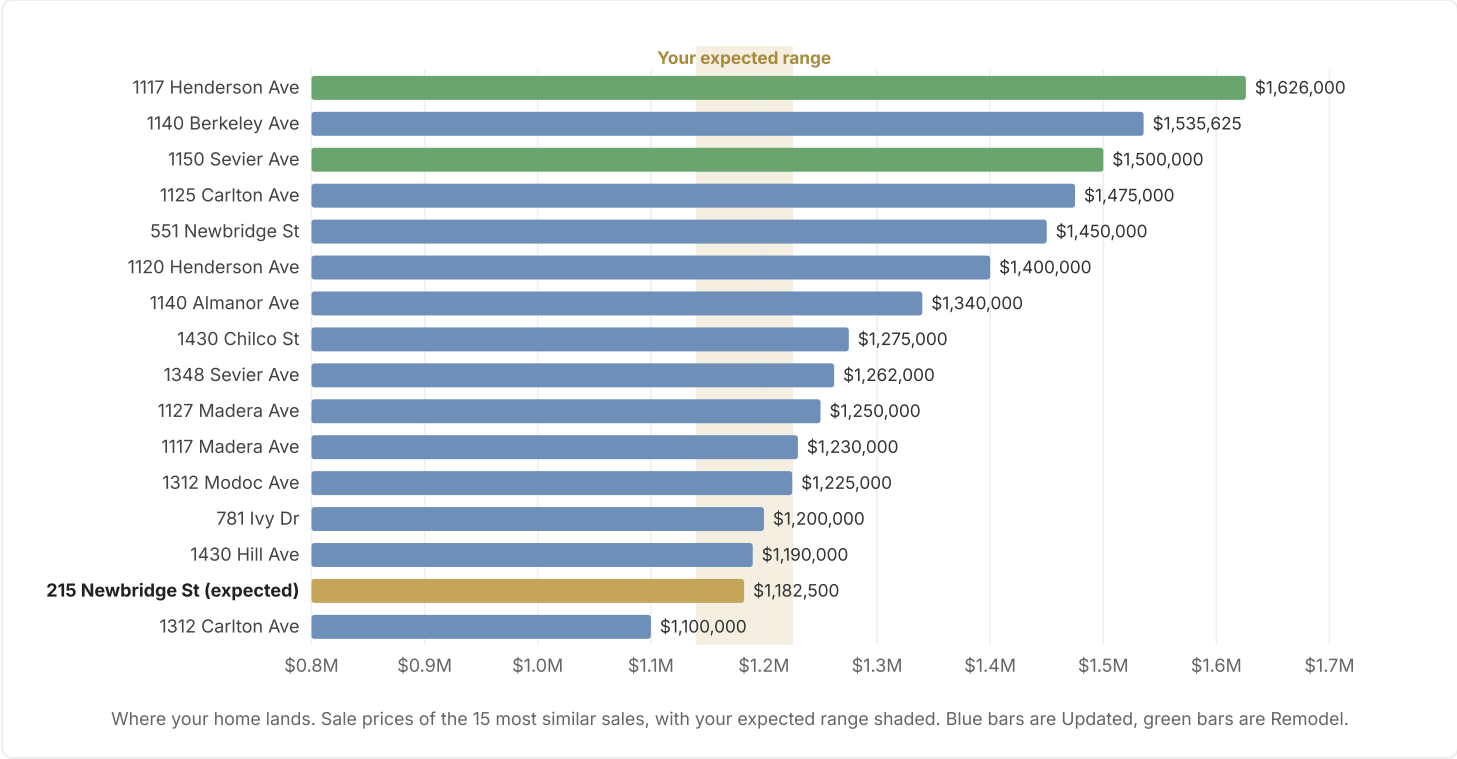

## COMPARABLE SALES. MOST SIMILAR. BELLE HAVEN, UPDATED & REMODEL

The 15 Belle Haven homes that sold in the last twelve months in the two condition tiers that bracket yours, Updated and Remodel. Sorted by price, with your home placed at the midpoint of its expected sale range. "Mi" is the straight-line distance from your home.

Left out: 1208 Henderson Avenue (\$1,244,000, February) and a February \$850,000 sale of 1268 Carlton Avenue were off-market sales entered in the MLS for comparison only, with no list price or condition. 1403 Kavanaugh Drive is coded to Menlo Park's MLS area but sits in East Palo Alto, so it is listed with the East Palo Alto sales. East Palo Alto sales: MLSListings Matrix, Area 322, single family, 700 to 1,150 sq ft, same window.

CURRENT COMPETITION. ACTIVE & PENDING

Everything for sale in Belle Haven today, plus the two East Palo Alto two-bedrooms under 1,000 square feet within a mile. "Cut" means the list price is below the original list.

| STATUS  | ADDRESS           | CITY       | MI   | LIST        | \$/SQFT | DOM | BD/BA | SQFT | NOTES |                                                                              |
|---------|-------------------|------------|------|-------------|---------|-----|-------|------|-------|------------------------------------------------------------------------------|

|------------|--------------------|----------------|------|-------------|---------|--------|-------|-------|----------------------------------------------------------------------------------------|
| Pending    | 224 Ivy Dr         | Menlo Park     | 0.14 | \$1,599,000 | \$1,193 | 13     | 3/2   | 1,340 | Studs-up remodel of the \$1,100,000 February purchase                                  |
| Pending    | 1145 Henderson Ave | Menlo Park     | 0.07 | \$1,499,000 | \$1,020 | 7      | 4/2   | 1,470 | Remodeled kitchen and baths, new central AC; in contract in a week                     |
| Active     | 1130 Sevier Ave    | Menlo Park     | 0.26 | \$1,395,000 | \$1,018 | 15     | 3/2   | 1,370 | Updated Spanish bungalow, quartz kitchen; sold for \$1,400,000 in June 2024            |
| Active     | 1030 Bradley Way   | East Palo Alto | 0.70 | \$924,000   | \$1,141 | 81     | 2/1   | 810   | Same 810 sq ft as your county record, across Willow Road; still for sale after 81 days |
| Contingent | 2369 Oakwood Dr    | East Palo Alto | 0.87 | \$799,000   | \$1,110 | 92 cut | 2/1   | 720   | Updated kitchen; cut \$100,000 before it found a buyer                                 |

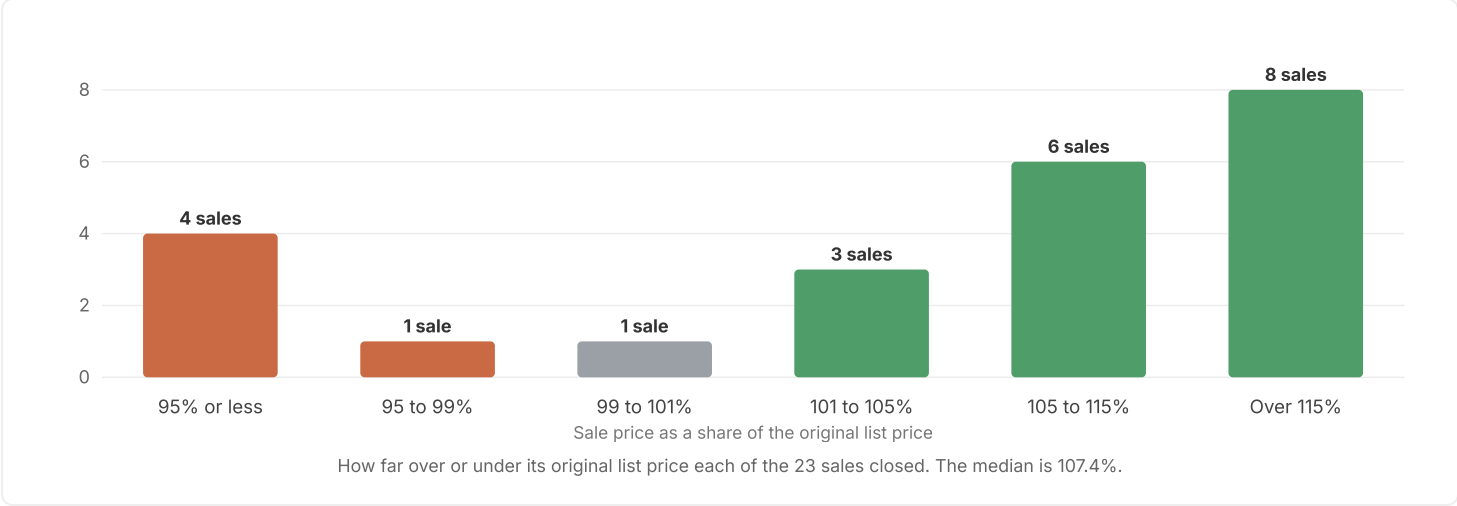

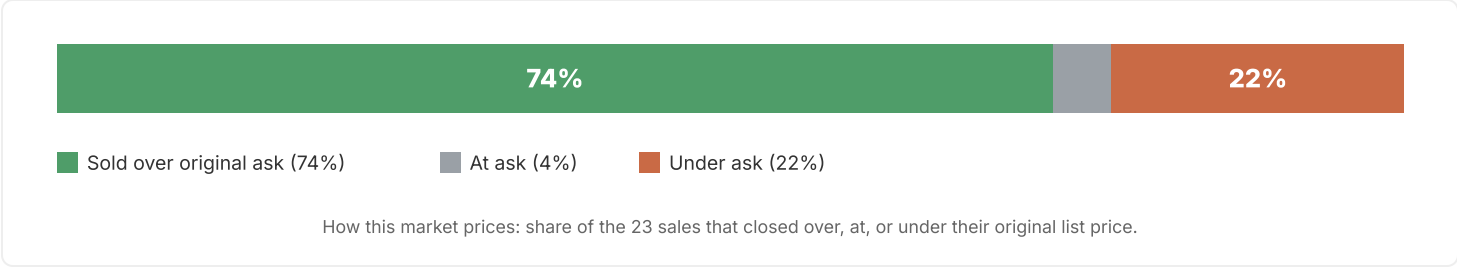

What little is for sale in Belle Haven is bigger and priced at \$1.4 million and up. Your competition for a buyer at about \$1 million is across Willow Road, and it's stuck: 1030 Bradley Way, the size of your county record, has sat 81 days at \$924,000, and 2369 Oakwood Drive needed a \$100,000 cut and 92 days to find a buyer. Priced near \$1 million, a Menlo Park 3 bed, 2 bath in great condition will stand out.

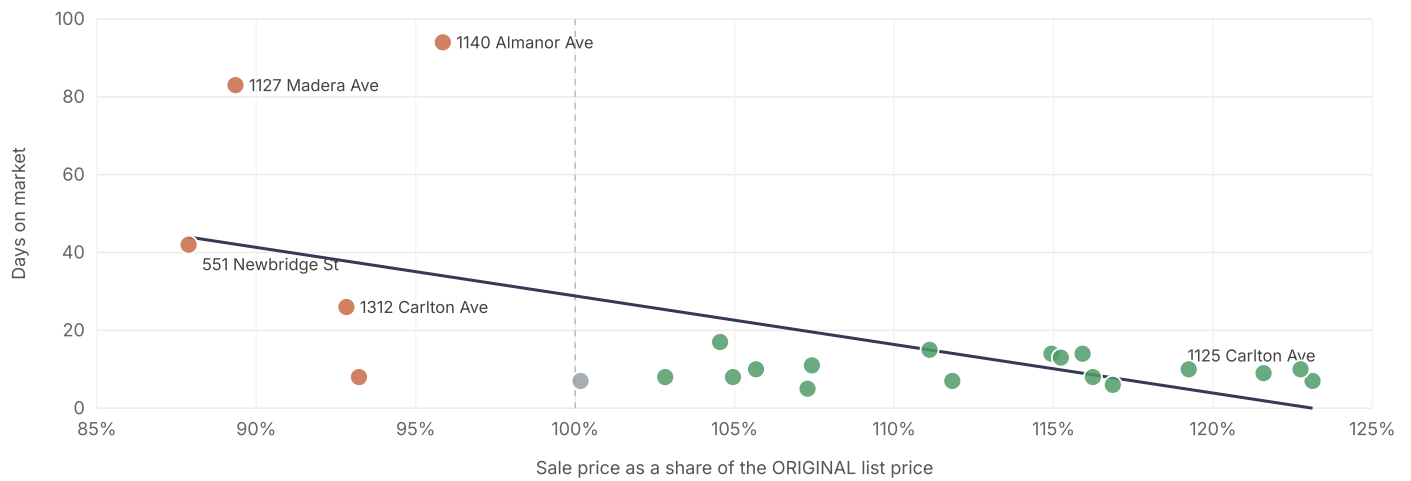

## MARKET PRICING BEHAVIOR AND THE DAYS-ON-MARKET CORRELATION

The question behind every list price: does Belle Haven reward pricing sharp, or pricing high and waiting? Here are the original list price, sale price and days on market for all 23 Belle Haven single-family MLS sales of the last twelve months.

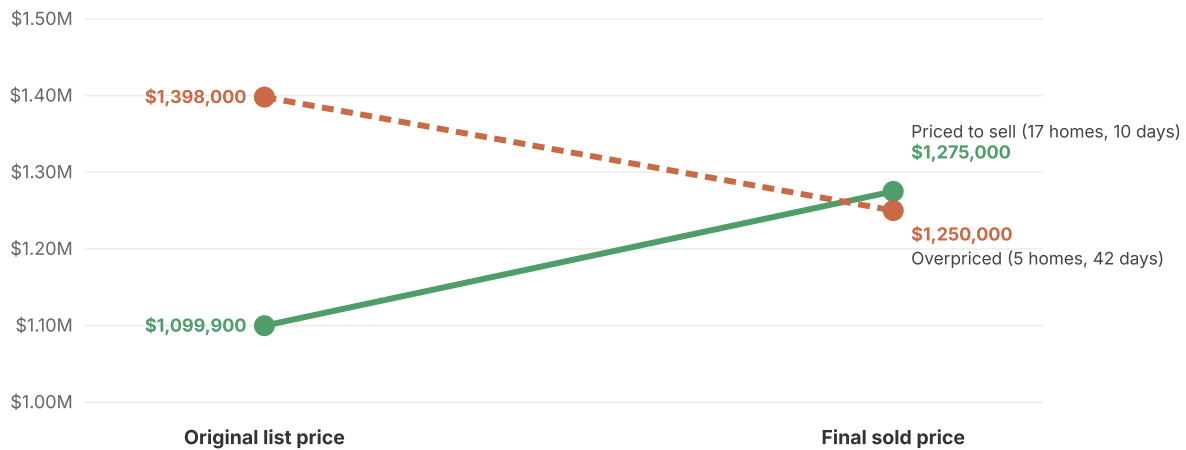

74% of Belle Haven homes sold over their original asking price

The median home closed at 107.4% of its original list price, in 10 days

Longer on market, bigger discount. Each dot is one sale: its price as a share of the original list, against its days on market. Correlation  $-0.58$ , a clear pattern, not a guarantee for any single home. The line shows the general direction.

Same neighborhood, opposite outcomes. The 5 homes that sold under their original ask listed a median \$298,100 higher than the 17 that sold over, and still sold for \$25,000 less, after a median 42 days instead of 10.

| APPROACH                                | # OF SALES | MEDIAN ORIG LIST | MEDIAN SOLD | MEDIAN VS. ORIG LIST | MEDIAN DOM |
|-----------------------------------------|------------|------------------|-------------|----------------------|------------|
| Priced to sell (sold over original ask) | 17         | \$1,099,900      | \$1,275,000 | 114.9%               | 10 days    |
| Priced at market (within 1%)            | 1          | \$1,198,000      | \$1,200,000 | 100.2%               | 7 days     |
| Overpriced (sold under original ask)    | 5          | \$1,398,000      | \$1,250,000 | 92.8%                | 42 days    |

## READING THE NUMBERS

Of the 23 Belle Haven homes that sold in the last twelve months:

- **17 homes (74%) priced it to sell** and sold over their original ask, a median of **\$1,275,000** (about 15% over), in a median of just **10 days**.
- **1 home (4%) sold at asking:** 781 Ivy Drive, \$1,200,000 on a \$1,198,000 list, in 7 days.
- **5 homes (22%) overpriced** and sold below their original ask. They started highest (median list \$1,398,000) but sold for a median **\$1,250,000**, about 7% under, and took a median **42 days**, four times as long.
- **3 homes (13%)** cut their price at least once before selling.

**The overpriced group listed \$298,100 higher and sold for \$25,000 less.** The first list price decided where each one ended up.

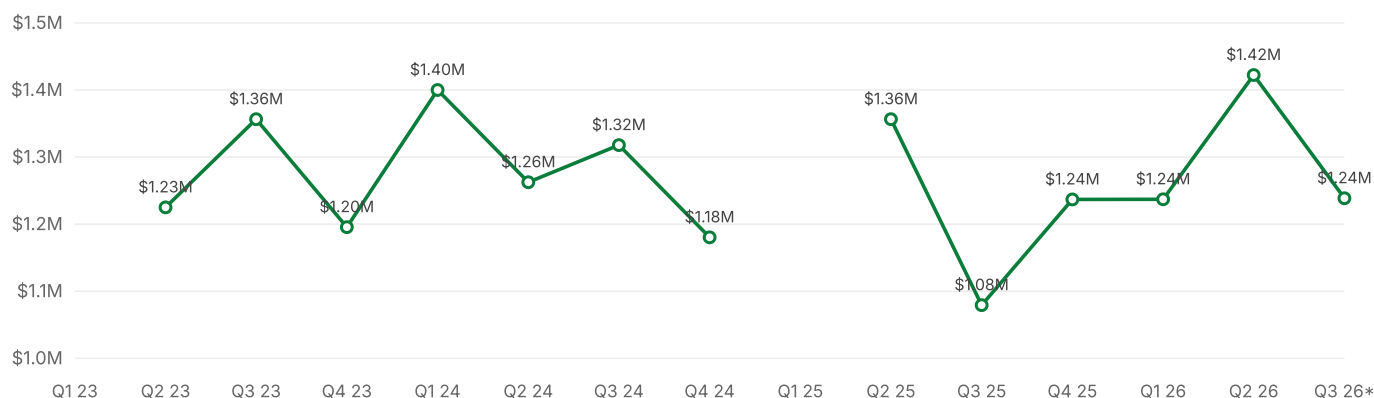

**Why is the market pricing this way?** The five that sold under ask priced off the wrong homes. 551 Newbridge listed at \$1,650,000 after 1117 Henderson's full remodel sold for \$1,626,000. 1140 Almanor listed at \$1,398,000 for 970 square feet. 1127 Madera and 1312 Carlton asked buyers to pay for in-law and garage-conversion space, and buyers wouldn't. Meanwhile, buyers bid up 10 of the 13 homes listed between \$998,000 and \$1,200,000 within two weeks. With so little for sale, they compete hard for homes priced within reach and pass on the rest.

**What this all means.** Belle Haven buyers passed on list prices that reached for the remodels and bid up the ones that sat a little under the comps. For your home, that means marketing it as the 3 bed, 2 bath it lives like, disclosing the conversion up front, and listing below the updated three-bedrooms buyers will compare it with. The mid-tier band below, \$1,025,000 to \$1,080,000, asks buyers to compete 9% to 15% over list to reach the expected midpoint, about the 15% the typical winner paid here in the last twelve months.

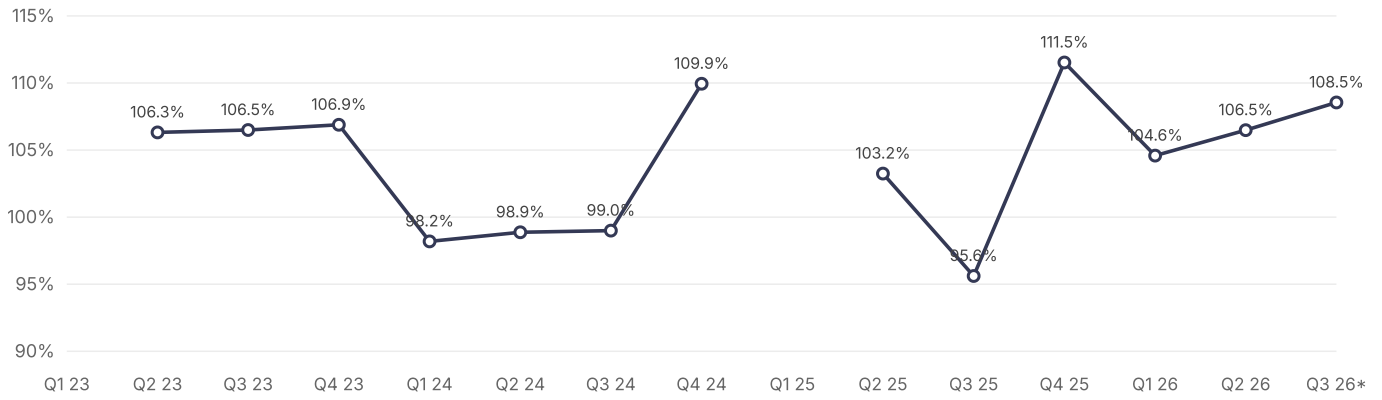

Sample: 23 Belle Haven single-family MLS sales, closed 9/29/2025 to 9/29/2026. Original list price and days on market from each MLS record. Directional read, not a guarantee for any single home.

## MARKET DATA AND TRENDS

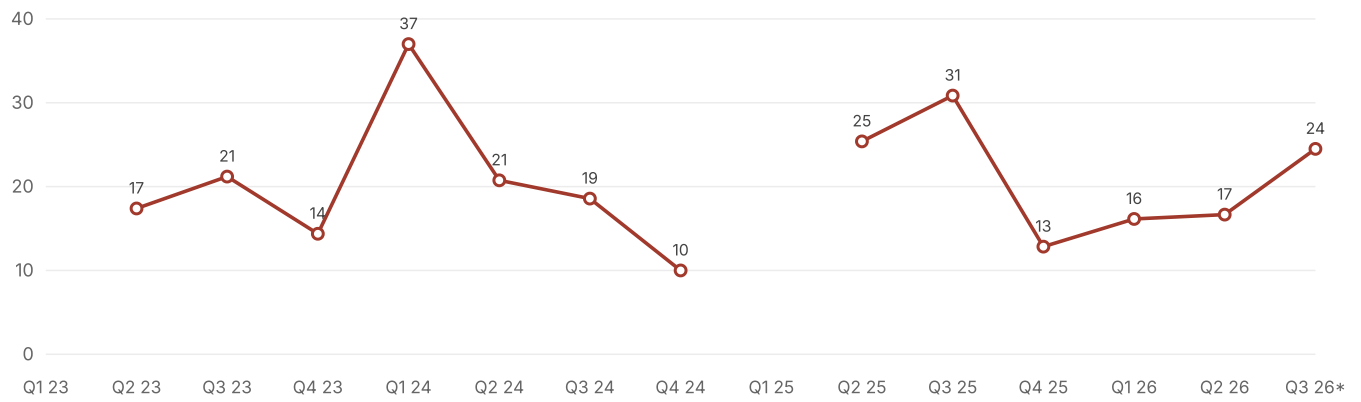

Belle Haven is small, 91 single-family sales since January 2023, so single months jump around. These charts group the MLS Stats by quarter. September 2026 is not complete and is left out, so the last quarter (marked \*) covers July and August only. The first quarters of 2023 and 2025 had two sales each and show as gaps.

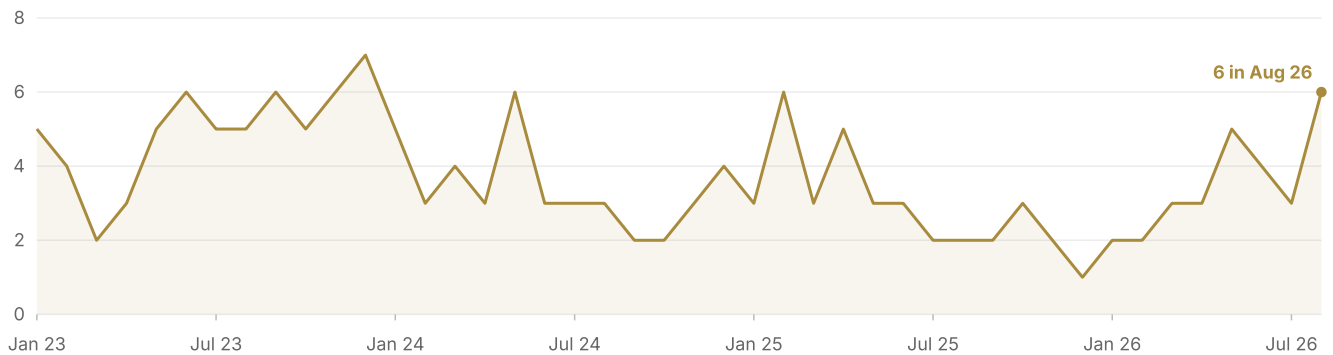

Average sale price by quarter. Flat for three years at roughly \$1.2 million to \$1.4 million, with the swings set by which houses sold. The second quarter of 2026 includes one of the two 2007 two-story homes. Source: MLSListings Matrix Stats, Area 310, single family, January 2023 to August 2026, 91 sales.

Sale price as a share of original list price, by quarter. 104.6% to 111.5% in every quarter since October 2025, up from 95.6% in the third quarter of 2025. Same source.

Average days to sell, by quarter. 13 to 25 days since October 2025. Same source.

Active listings at month end. Never more than 7 in the last three and a half years. Same source.

Prices here have held rather than run up, and sellers who price well still get bid up. The pace slowed a little this summer, about 25 days on average in July and August, which is what you'd expect with rates back above 7%.

## THE RATE ENVIRONMENT

**7.50%**

MORTGAGE NEWS DAILY (9/28)

**7.43%**

BANKRATE, CALIFORNIA (9/29)

**7.12%**

MBA WEEKLY SURVEY (9/24)

**7.03%**

FREDDIE MAC PMMS (9/24)

Four sources, 30-year fixed, checked September 28 and 29, 2026, run 7.03% to 7.50%. A year ago the rate was 6.38%, and in late May it was about 6.6%. For a buyer putting 20% down on \$1,182,500, today's rate means about \$6,615 a month in principal and interest, \$710 more than at last year's rate. Fewer buyers can stretch past \$1.2 million at that payment, and that is the main risk to the top of this range. Rates move daily, so we'll check them again the week we list.

PRICING STRATEGY

EXPECTED SALES PRICE

\$1,140,000 to \$1,225,000

Midpoint \$1,182,500, about \$1,137 per square foot of the 1,040 as marketed (\$1,460 on the county's 810)

That's what I expect your home to sell for, not what I'd put on the sign. In Belle Haven those are two different numbers, and the gap between them is the strategy.

**How the expected sales price was built.** Size explains very little of price in Belle Haven's updated tier ( $r^2$  of 0.08 across all 13 sales, 0.21 leaving out the home with an in-law unit), so this range comes from bracketing rather than a price per square foot. As a 3 bed, 2 bath of about 1,040 square feet, your home competes with the three-bedrooms of 910 to 1,140 square feet. If buyers discount the converted room because it isn't permitted, you sell like the two dated ones, \$1,130,000 and \$1,150,000, and their \$1,140,000 midpoint sets the bottom of the range. If they take it as the third bedroom and second bath it is, your condition puts you with the five updated ones, \$1,190,000 to \$1,262,000, and their \$1,225,000 median sets the top. The top stops at that median rather than their high because rates are about a point above where most of them went into contract, and because an appraiser will likely count only the county's 810 square feet. I left 1140 Almanor, a remodel on a 6,874 square foot lot that took 94 days, out of the bracket. A size fit across the updated tier, a cross-check only, puts 810 square feet at about \$1,145,000 and a fully permitted 1,040 at about \$1,264,000. With 230 of your 1,040 square feet unpermitted, your home belongs between the two. Your second bath is the one thing none of those three-bedrooms had.

Three ways to price into that expected sale, all marketed as a 3 bed, 2 bath with the conversion disclosed.

AGGRESSIVE LIST STRATEGY

Just below \$1 million

\$999,000, for example. It prices under value to start a bidding war, and a Menlo Park 3 bed, 2 bath under \$1 million shows up for every buyer whose search stops at \$1 million. At the typical winner's 114.9% of list, \$999,000 lands at about \$1,148,000, in the lower part of the expected range.

**Pros:** Draws the widest buyer pool, highest odds of multiple offers, typically the fastest sale.

**Cons:** If it does not draw competition, the sale can land at or near the low list price, which reads publicly as underperforming.

MID-TIER PRICING STRATEGY

\$1,025,000 to \$1,080,000

Lists under the expected price, and below the \$1,190,000 to \$1,262,000 updated three-bedrooms a buyer will compare it with. Reaching the expected midpoint takes a 9% to 15% jump, about what the typical Belle Haven winner paid.

**Pros:** Balances speed and upside, matches what most of the current market is actually doing.

**Cons:** Less dramatic than an aggressive list, so somewhat lower odds of a bidding-war ceiling.

HIGHER-END PRICING STRATEGY

\$1,099,000 to \$1,190,000

Lists from just under the expected range to about its middle, up to \$1,190,000. The higher the list, the more it asks buyers to pay for the converted garage before they compete, and the more it looks like the five Belle Haven homes that sold under ask: a median 42 days on market and a finish about 7% under the original price.

**Pros:** Keeps upside optionality if a premium buyer appears without a bidding war.

**Cons:** Longer time on market, a weaker hand in negotiation, usually requires one or more price cuts to reach the Expected Sales Price anyway.

IS \$1,200,000 TO \$1,250,000 REALISTIC? HERE'S WHAT IT WOULD TAKE

You'd like to sell for about \$1,200,000 to \$1,250,000. \$1,200,000 sits in the upper part of the expected range. \$1,250,000 sits above it. Here is how each price lines up against real Belle Haven sales.

| SALE PRICE         |                                 | PER SQ FT, 1,040 AS<br>MARKETED | PER SQ FT, COUNTY'S<br>810 | THE REAL SALE IT MATCHES                                                              |
|--------------------|---------------------------------|---------------------------------|----------------------------|---------------------------------------------------------------------------------------|
| \$1,140,000        | Bottom of the expected<br>range | \$1,096                         | \$1,407                    | 1127 Hollyburne, \$1,150,000: dated, 1,040 sq ft                                      |
| \$1,182,500        | Midpoint                        | \$1,137                         | \$1,460                    | 1430 Hill, \$1,190,000: updated, 910 sq ft                                            |
| <b>\$1,200,000</b> | <b>Your goal, low end</b>       | <b>\$1,154</b>                  | <b>\$1,481</b>             | <b>781 Ivy, \$1,200,000: updated, 1,140 sq ft</b>                                     |
| \$1,225,000        | Top of the expected<br>range    | \$1,178                         | \$1,512                    | 1312 Modoc, \$1,225,000, and 1117 Madera, \$1,230,000: updated, 1,000 and 1,040 sq ft |
| <b>\$1,250,000</b> | <b>Your goal, high end</b>      | <b>\$1,202</b>                  | <b>\$1,543</b>             | <b>1348 Sevier, \$1,262,000: updated, 1,130 sq ft</b>                                 |

The most any updated Belle Haven home got per square foot this year was 1140 Almanor's \$1,381, a remodel on a 6,874 square foot lot. On the county's 810 square feet, your goal works out to \$1,481 to \$1,543.

**1. The sale that proves the price.** 1117 Madera Avenue is the closest real sale to your goal: three bedrooms and 1,040 square feet, the same size as your home as marketed, with a quartz kitchen, new floors and paint. It listed at \$1,099,900 and sold for \$1,230,000 in 7 days in April, \$1,183 a square foot.

**2. What your home would need.** At Madera's \$1,183 a square foot, \$1,200,000 takes 1,015 square feet. Buyers would have to pay for about 205 of the garage room's 230 square feet at the same rate as the rest of the house. \$1,250,000 takes 1,057 square feet, 17 more than your whole house with the garage counted in full. Condition is the other half: Madera had a quartz kitchen and new floors, and yours is in great condition but charming rather than high-end.

**3. The market's pace.** Belle Haven homes took about 25 days on average to sell in July and August, against about 13 days from October to December 2025 and 10 days at the end of 2024, the fastest quarter on the days-to-sell chart. The 30-year rate rose from 6.38% to 7.50% over the past year. A record price per square foot is harder to get now than it was a year ago.

WHAT IT WOULD TAKE

- **For \$1,200,000:** list it as a 3 bed, 2 bath under the comps and draw at least two offers. A list of about \$1,045,000, inside the mid-tier band, gets there at the 15% jump the typical Belle Haven winner paid.
- **For \$1,250,000:** all of that, plus a buyer who pays more per square foot than Madera's buyer did (\$1,202 against \$1,183) and can cover an appraisal gap in cash.
- **The surer route to \$1,250,000** is a permit for the conversion. As permitted living space, your home would trade with the updated three-bedrooms, \$1,225,000 to \$1,262,000. That takes months, so it doesn't fit a listing in the next month.

**Listing at \$1,250,000 would put you with the five Belle Haven homes that listed above their comps this year.** They sold at a median 92.8% of their original price after a median 42 days. On \$1,250,000, that is about \$1,160,000, six weeks in, below where the mid-tier list would likely land.

Professional opinion of value, not a formal appraisal.

SPECIAL CONSIDERATIONS

**The converted garage.** Your measurements put it at about 230 square feet: a room of about 10'5" by 17'9" plus its own toilet and shower. It has been part of the house for decades (MLS listings back to 1998 show it), and it was never permitted. The plan is to market it as the third bedroom and second bath and to say plainly in the listing and the disclosures that the conversion isn't permitted, so no buyer is surprised in escrow. The range above prices it that way: as a bedroom and bath buyers will use, discounted for the missing permit. As permitted living space, the house would trade with the updated three-bedrooms, \$1,225,000 to \$1,262,000, so the permit is worth roughly \$40,000 to \$80,000 over the midpoint. Legalizing it takes months of design, permits and inspections, which makes it a disclosure item for this sale

rather than a pre-listing project. Belle Haven buyers are used to it: 1312 Carlton, 1151 Hollyburne and 1268 Carlton all sold in the last twelve months with converted or bonus space outside their permitted square footage.

**The appraisal.** An appraiser will likely count only the county's 810 square feet as living area and give the converted room less weight than the rest of the house. At the \$1,182,500 midpoint that is \$1,460 a square foot of the county's 810, above 1140 Almanor's \$1,381, the highest among the updated sales. We're hoping the extra space from the converted garage helps, even though it isn't permitted, but that's not a guarantee. A buyer with a loan may need to cover a gap between the appraisal and the price. Offers with appraisal-gap coverage or large down payments are worth more to you than their headline number, and we'll weigh them that way.

**The front yard.** The large, well-designed front yard is a real selling point, and the backyard is small. 1125 Carlton marketed its designed garden front and center and sold for \$1,475,000, 123% of its list price. Your front yard belongs in the first photos and the first line of the listing, because it is the outdoor space buyers will actually use.

**Menlo Park, not East Palo Alto.** Your home is inside Menlo Park's city limits, and the listing, the sign and every ad should say so. Updated three-bedroom, two-bath homes across Willow Road sold for \$990,000 and \$1,065,000 this year. The Menlo Park address is a large part of the difference.

**The new roof.** The 2024 reroof, from shake to composition shingle, is permitted and finalized with the city. It answers the first question buyers ask about a 1949 house, so it goes in the listing.

NEXT STEPS

Let's pick a list date and go over prep and timing together. And if you know anyone thinking about buying or selling, I'd be grateful for the introduction.

Prepared September 30, 2026 regarding 215 Newbridge Street, Menlo Park, CA 94025. Comparable sales, listings and market statistics from MLSListings Matrix, each sale's dates confirmed in its MLS record. Rates from Mortgage News Daily, Bankrate, the MBA weekly survey and Freddie Mac. Permit history from the City of Menlo Park. Converted garage size from the owners' measurements. Professional opinion of value, not a formal appraisal.
